-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3611

1. Claim 4-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 4, lines 4 and 8, "-type" is indefinite and should be removed.

In claim 5, lines 4 and 8, "-type" is indefinite and should be removed.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 2, and 4-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Saiki (USPN 6,158,279) in view of Tsuji (USPN 6,616,165).

Saiki shows a motorcycle with a head lamp 30 and meter 32 unit mounted to the head lamp. The light bulb 62 of the lamp is replaced from the rear of the lamp.

Saiki shows the meter unit that is removable rather than pivotable, to allow access to the interior of enclosure that houses the lamp.

Tsui shows a meter unit pivotably mounted to allow access to an enclosure that also mounts a head lamp. An upwardly rotated position of the meter allows access to the interior and a downwardly rotated position is used for normal driving of the motorcycle. An upper fixing means 44 rotatably mounts the upper back side of the meter unit and a lower fixing means 39 fastens the lower rear of the unit.

It would have been obvious to one of ordinary skill in the art to modify the Saiki arrangement to pivotally mount the meter on the lamp, as taught by Tsui, in order to provide convenient access behind the meter unit.

4. Claims 3, 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Tsui (USPN 6,484,836) and Morita show pivotable meter units.

Komuro, Blom, JA 6-219,207, JA 3-82685, and Sumada show embodiments of meter units mounted proximate lamps.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne Marie M Boehler whose telephone number is 703-308-0422. The examiner can normally be reached on 7:30-5:00, Monday-Thursday, and alternate Fridays.
